# SUPPLEMENTARY DRUG COVERAGE

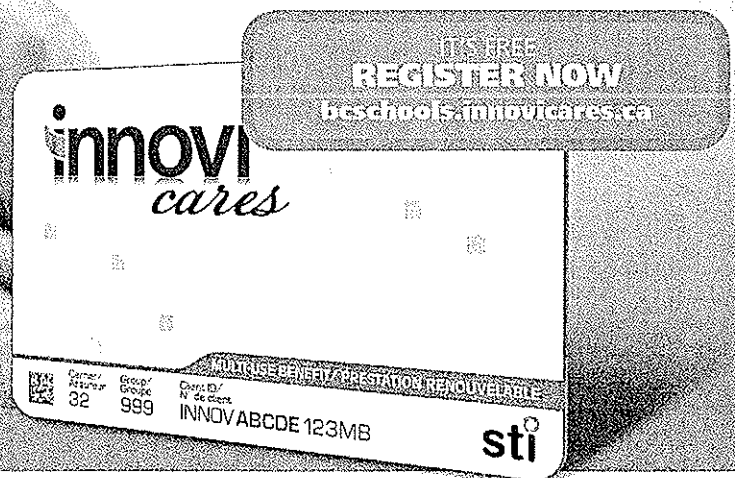

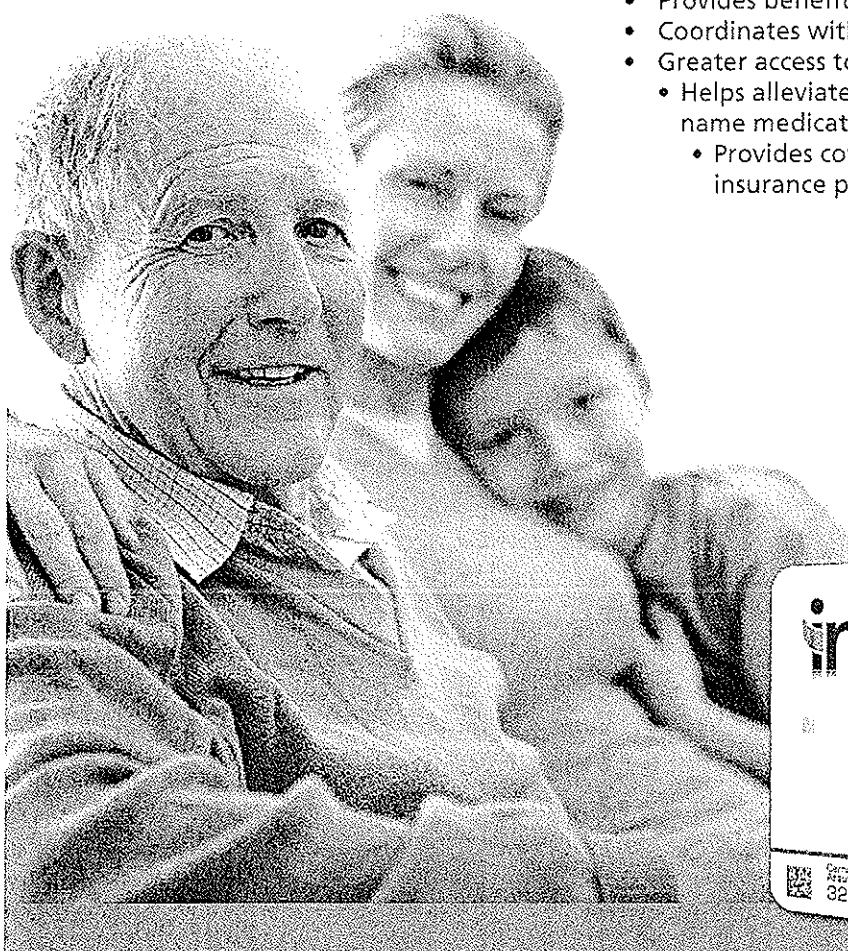

InnoviCares is a unique benefit program, providing you with the choice to stay on brand name medications at the generic price and additional savings on many healthcare products.

## What are the benefits?

- No cost to you or your benefit plan
- Provides free supplementary drug coverage
- Provides benefits for chronic conditions like diabetes and pain
- Coordinates with your primary drug plan
- Greater access to medications and healthcare products
  - Helps alleviate many financial barriers when choosing brand name medications
    - Provides coverage for members that don't have a private insurance plan

## How to Register

To start taking advantage of the benefits available through innoviCares, simply register online. Once registered a permanent card will be mailed to you, for immediate benefits you can download a card online.

innoviCares is proudly supported by the manufacturer's of these participating brands...

The innoviCares card is required to provide the member with specific offerings. The member may still be responsible for additional costs not covered by their innoviCares card.

For the Local websites:

## innoviCares: Your health, your choice.

InnoviCares is a free patient benefit program available for Local \_\_\_ members, providing members and their families with additional coverage for a variety of medications and health products - giving you greater access and choice.

The innoviCares program gives members the choice of brand name medication and therapies as prescribed by their physician and dispensed by their pharmacist by covering up to the difference in the cost between the brand name drugs and the generic alternatives.

There are currently close to 100 brand name medications from 18 pharmaceutical companies on the innoviCares program, and new medications are being added all the time.
